

*The National Union for the Promotion of Vacation Rentals (UNPLV), which brings together the players in tourist furnished rentals in France (Abritel, Airbnb, TripAdvisor, LeBonCoin, Accommodation Holidays, CléVacances, Interhome, Poplidayes...), and O2 Care Services, the French leader in personal services among which home cleaning, which benefits from NF certification, Services, have formed a partnership to establish a list of vouchers cleaning and disinfection for the attention of owners of self-catering accommodation, in the context of the struggle against the spread of the Covid-19 virus.*

The latest available studies indicate that the Covid-19 virus may remain viable and infectious for several hours and up to several days depending on the surface (72 hours on plastic, 48 hours on stainless steel, 24 hours on cardboard).

The respect scrupulous cleaning and disinfection gestures recommended by the company O2 Care Services certified, the only alternative to the waiting period between two rentals, is essential to meet the requirements of families who plan to rent a holiday residence this summer. Vacation rental platforms can promote to their users owners and hosts the following actions and recommendations developed by the O2 certified company and ask them to commit to respecting these gestures and recommendations :

### **Inside the accommodation**

- Ventilate the rooms 15 to 30 minutes minimum (if possible leave the windows open during the interview),
- Before disinfecting the home, clean the surfaces using a cleaning product (water + soap for example),
- Disinfect the soil using a virucide, such as bleach diluted in water,
- Disinfect the contact surfaces with the diluted bleach:  
Worktop, table, chairs, switches, handles, WC, remote controls, buttons  
appliances, doorbell, digital code ...
- Clean dishes and cutlery in the dishwasher (or clean with water and dishwasher soap),
  - Wash sheets and household linen in a machine at 60 °,

If the home is not equipped with a washing machine, isolate the laundry in a separate bag to carry it.

### **Outside the accommodation**

- Dust and clean the exterior surfaces with a cleaning product (water + soap for example) before disinfecting them,
- Disinfect the terrace (ex: tiling) using a virucide, such as diluted bleach in water,

Please note that using bleach on wooden surfaces may bleach the wood.

- Disinfect the contact surfaces with the diluted bleach:

Garden furniture, deckchairs, armrests, bicycle handles, guard rails, railing

### **Individual protection products and equipment (PPE) to be used:**

- A mask : disposable or machine washable (after each use) to avoid any contamination during home maintenance.

- Gloves : Favor the use of disposable gloves. Throw them away at the end of the home. In the case of reusable gloves, disinfect them well with bleach before and after carrying out the maintenance of the home.

Make sure to wash your hands before and after using the gloves.

- A cleaning product : Use a usual commercial multi-surface cleaning product.

An ecological and efficient alternative:

o water + soap

or

o water + detergent

- A virucidal product : Dilute 5 teaspoons of bleach to 2.6% chlorine (check the composition at the back of the product) with 1 liter of water.

(Caution, do not dilute with hot water to avoid canceling the properties of bleach).

- Adequate equipment : Use rags, mops, sponges for single use or that can be washed in machine.

### ***About the UNPLV:***

*The UNPLV, the National Union for the Promotion of Vacation Rentals, brings together main players in holiday rentals: Abritel, Airbnb, CléVacances, SeLoger Vacances, Amivac, Vacances.com, Leboncoin, Tripadvisor, Interhome, Syndicat des Furnished Rental Professionals, Popliday and Homeliday.
